- Gujarati: Fluent

PROFILE SUMMARY

Proficient **Front-End Web Developer** with hands-on experience in **HTML, CSS, JavaScript, and React**, specializing in building **intuitive, high-performance, and user-friendly websites and applications**.

LEARNING EXPERIENCE

I started my coding journey with **HTML, CSS, and JavaScript**, building projects to understand **structure, styling, and interactivity**. As I advanced, I explored **React.js**, mastering **API calls, hooks, and state management**.

- Developed a **4K wallpaper** website with multiple pages and API integration.
- Built a **React Project** featuring a **chatbot and a text-to-image generator**, allowing seamless image downloads without login.
- Gained experience in **WordPress and GitHub**.
- Currently learning **Python** to enhance backend development skills.

What I Can Do:

- Develop responsive websites with smooth UI/UX and modern design principles.
- Build dynamic web applications using React.js with API integration, hooks, and state management.
- Optimize performance for fast-loading, scalable websites.
- Implement version control using GitHub for collaborative and efficient development.
- Customize WordPress themes and optimize them for better user experience.
- Utilize APIs for fetching and displaying real-time data in applications.
- Basic backend development with Python, enhancing functionality and automation.

PROJECTS (You can explore the projects by clicking on their titles.)

1.Let's Meet Ai - Free AI Tools And Features

- Intelligent Chatbot:** Provides real-time, engaging, and informative responses using the Gemini API.
- AI Image Generator:** Converts text prompts into visuals effortlessly using Hugging Face API.

2.Mr Clicker - Free Stock Images and More...

- High-Quality Wallpapers:** Integrated Unsplash API to fetch and display millions of stunning 4K wallpapers.
- Dynamic Search & Filtering:** Users can easily find wallpapers using an optimized search feature.
- User-Friendly Interface:** Designed with a clean, responsive, and smooth UI for seamless browsing.
