WORK EXPERIENCE

INFORMATION TECHNOLOGY ENGINEER
JDIT Solution — Ahmedabad, India
May 2025 - Present

- Provided technical support and troubleshooting assistance to employees and IT team members.
- Diagnosed and resolved hardware, software, and network issues to ensure smooth daily operations.
- Assisted in system maintenance, software installation, and configuration of user systems.
- Managed IT tickets and ensured timely resolution of user-reported problems.
- Supported internal IT projects, including system upgrades, backups, and security updates.
- Collaborated with cross-functional teams to identify and resolve recurring technical issues efficiently.

Projects (You can explore the projects by clicking on their titles.)

Meet Gauswami - Front-End Developer & Web Designer ...

- Clean, modern, and responsive UI to work seamlessly across devices.
- Dynamic sections including About, Services, Skills, Projects, and Contact.
- Interactive project display — links to live demos of my works such as "Let's Meet AI", "Mr Clicker", "Spotify Clone", and "The Film Locator."
- Contact form integration to allow potential clients or employers to reach me directly.
